Xfinity Voice Comcast's IP-enabled telephone service, branded Xfinity Voice, is a residential, primary line service that offers digital quality and includes all of the features that customers expect from their phone service in addition to new, enhanced features such as the ability to check voice mail online. Comcast also offers commercial telephone services, branded Comcast Business Class (formerly Workplace Digital Voice), and has a very small number of switched-circuit (non-IP enabled) commercial Comcast Digital Phone customers.

Text messaging is a service offered to all unlimited Xfinity Voice subscribers, leveraging the Comcast network to send and receive text messages from a home computer or smart phone with an installed Xfinity text messaging application. Comcast can provide historic text message sessions by the originating and terminating device identification and telephone number for a period of at least 30 days. Xfinity Internet Xfinity Internet provides a constant connection to the Internet and offers download speeds up to 105 Mbps depending on the location of the Comcast market. In addition, Comcast provides subscribers with up to seven unique email accounts accessible from any Internet-connected computer. Note: If law enforcement needs data regarding a Wi-Fi connection associated with or that appears to have a connection that appears to be Comcast related, please contact the LRC for further instructions. Xfinity TV Xfinity TV service provides customers with the best television programming and networks, as well as movies, sports, and other events. On Demand and Digital Video Recorder options further enhance customers' ability to experience all of the programming provided over this service.

~~Xfinity Wi-Fi Xfinity Wi-Fi is provided to all Xfinity Internet subscribers as a value added service and may be accessed by a subscriber using any device that is Wi-Fi capable. Also, limited periods of Wi-Fi service are provided to non-subscribers through a sponsored access program. Comcast also participates in a program with other cable companies that offers non-Comcast subscribers access to Wi-Fi services on the Xfinity network. In order to identify the user of an Xfinity Wi-Fi IP address, the associated origination port address must be provided. Comcast can provide historic Internet Protocol assignment and session information for a period of 180 days for Xfinity Internet users. Rev. May 1, 2015 Comcast Legal Response Center 866-947-8572~~
